Title \* IoT for climate change

Content \*  
UK environmental organizations currently face a significant funding gap. It is well-established that representations of individual victims are more effective than abstract concepts like climate change when designing fundraising campaigns. This study aims to determine how such representations can be better targeted in order to increase donations. Specifically, it investigates whether the perceived social distance between victims and potential donors has an impact on donation intention. In this context, social distance is defined as the extent to which people feel they are in the same social group (in-group) or another social group (out-group) in relation to climate change victims.

There are no materials yet.

## Peer reviewing

### 📄 Paper

📄 The call for papers is open  
You can submit a paper.

1 **Submit paper**

After submitting the paper, author need to wait for the review of the paper.

Author can check the status of the paper through **Paper Peer Reviewing**

The screenshot displays the 'Conference on AI & IOT' website. The header includes the conference title, dates (February 1, 2022 to March 1, 2022), and the UniMAP logo. A search bar is located in the top right corner. Below the header, a banner reads 'e-conference portal under testing'. A central message box titled 'Bridging the Gap between Research and Implementation' provides information about the conference's focus on meeting with people from diverse backgrounds.

On the left side, a navigation menu lists various conference-related items, with 'Paper Peer Reviewing' highlighted. The main content area shows the 'Paper Peer Reviewing' section for a paper titled 'IoT for climate change #10'. The paper's status is 'Submitted', and it was submitted by 'participant one' on March 12, 2022. A 'Paper.pdf' icon is visible next to the submission details. Below this, a 'Peer Reviewing' section indicates that the paper is under review, and a 'Submit for Editing' button is available. A comment section shows a notification from 'participant one' regarding a paper revision #1 submitted on March 12, 2022, with a 'Paper.pdf' icon and a 'Leave a comment...' input field.

Once the review feedback available.

Author can view the comment from the reviewer in the tab **“Paper Peer Reviewing”**

**i** **Bridging the Gap between Research and Implementation**

1 If the editor asks for a correction, you will be able to submit a new file via the *editing* section.

2 Select the new file and then click on *Submit new revision*

The screenshot displays the 'Paper Editing' interface for the paper 'RFID detect moisture content With IoT'. On the left is a navigation menu with options like 'Overview', 'Call for Abstracts', 'Scientific Programme', 'Timetable', 'Conference Fee', 'Registration', 'Contribution List', 'Author List', 'Speaker List', 'My Conference', 'My Contributions', 'Paper Peer Reviewing', 'Participant List', 'Accommodation', 'Secretariat', 'Exhibitors', 'Sponsorships & Donations', and 'Contact'. The main content area shows the paper's status as 'Not scheduled', '20m', and 'UniMAP'. It lists the speaker as 'Dr Latifah Munirah Kamarudin' and the primary author as 'Dr Latifah Munirah Kamarudin'. The description states 'Here is the test abstract. What is your experiment? Deep Learning'. Under 'Presentation materials', it says 'There are no materials yet.'. The 'Peer reviewing' section shows 'Paper files: corrected versio...'. The 'Editing' section has a 'Paper: Needs Changes' status. On the right, a 'Paper Editing' sidebar offers 'OTHER MODULES' (Call for Abstracts, Peer Reviewing) and 'OTHER VIEWS' (Display). The main content area shows the submission history for 'International Conference on Artificial Intelligence & Internet of Things 2022'. It lists two submission attempts for 'RFID detect moisture content With IoT #6', both with a 'Needs Changes' status and a 'Download ZIP' button. A comment from the editor on 15 March 2022 at 10:21 asks the submitter to check the figure format, correct the table format, and correct the margin. Below the comment is a 'Leave a comment...' input field. At the bottom, the 'Upload corrected revision' section shows the upload area for the PDF and SUBMISSION DECLARATION FORM, with a 'Submit new revision' button. A yellow circle with the number '1' is placed over the comment, and another yellow circle with the number '2' is placed over the 'Submit new revision' button.

Once the author submit the final paper, author need to register the paper.

The registration can be done through:

### Scientific Program 📄

**2021 Theme Societal Impacts of Digital Disruption**

It was chosen to reflect how COVID-19 speeded the adoption of digital technologies by several years in many domains and to focus on the implications of this pandemic. Technological development has long been considered a disruptive force, provoking change at many levels, from individuals' routine daily activities to dramatic global superpowers' competition. In just a few months, the COVID-19 crisis has brought about years of change in the way companies in all sectors and regions do business, leading to a quantum leap at both the organizational and industry levels.

Further, the ongoing developments in the MENA region focus on the deployment of "Digitalization" to facilitate and operate the principles and policies remotely. This introduces a new world of digitalized work that binds the ties to keep you connected with the rest of your community, and spreads ideas even when you are apart!
